## Education and academic degrees

1988 Cand.Scient (MSci) in biology at University of Copenhagen  
1992Ph.D in Cellular and Molecular biology at the Protein laboratory, University of Copenhagen

## Positions

1992-95: Post doc at Dept. of Growth and Reproduction, Rigshospitalet  
Since 1992: Scientific supervisor of the Hormone Laboratory at Dept. of Growth and Reproduction  
1995-2000: Senior research fellow, Dept. of Growth and Reproduction, Rigshospitalet  
Since 2000: Research director, Dept. of Growth and Reproduction, Rigshospitalet,  
Laboratory leader of the Hormone laboratory same place. In 2004 an analytical chemistry unit was added  
Since 2006: Member of the Department's Management Group  
Since 2008: Director of the National Danish Centre on Endocrine Disrupting Chemicals (cend.dk)  
Since 2014:Member of the EDMaRC Management Group (edmarc.net)  
2014-2018: Ph.D coordinator at Juliane Marie Centre, Rigshospitalet for the Graduate School of Health and Medical Sciences, Panum  
Since 2018 Group leader of the Hormone and endocrine disruptor laboratory group (<https://bit.ly/3v0h4vf>)

## Research areas

Since early 1990'ies my research area has mainly been male reproductive health with emphasis on male reproductive hor-mo-nes and their role in gonadal development and function. My work in this area has also led me into the field of environmental endocrine disrupting chemicals and their possible impact on human reproductive health. I am laboratory leader of the hormone and chemistry laboratory at Dept. of Growth and Reproduction and have many years experience in hormone immunoassays. Since 2004 my research interests have also included human biomonitoring of non-per-si-s-tent en-viron--mental chemicals matrices and their possible associations to human health.
