Research Focus

I have 13 years of experience within clinical research. My scientific focus area is maintenance of mobility and functioning in older adults (>65). I focus specifically on exercise and mobility regimens aiming at avoiding functional decline in connection with a hospitalization and thereby enabling older adults to maintain their independence.

Employment

Senior researcher, Department of Clinical Research, Copenhagen University Hospital, Hvidovre, Denmark; 2020 ->

Associate Professor, Department of Clinical Medicine, University of Copenhagen 2020 ->

Other professional experience

Advisory Board Member, Danish Society for Physiotherapy in Gerontology and Geriatrics, Denmark (2022-)

Member of Steering Committee for the 'National Database for frail older adults', Denmark (2022-)

Member of the Regional Ethics Committee of the Capital Region (2022-)

Member of assessment committee for "Development and Research Grant", KL and Sundhedskartellet (2019)

Member of Scientific Board for 'Nordic Congress of Gerontology 2022', Denmark (2018-2022)

Member of Steering Committee for the 'National Database for Geriatrics', Denmark (2017-2019)

Member of Working Group at the Association of Danish Physiotherapists providing proposals for developing a 'National Action Plan for Dementia' at the National Board of Health, Denmark (2016)

Member of working group at The National Board of Health, Denmark, developing a 'National Clinical Guideline on exercise and nutrition in geriatric patients' (2015-16)

Member of Scientific Board for 'Congress on the Older Medical Patient' organized by the Association of Danish Physiotherapists (2015)

Education

PhD in Clinical Research, University of Copenhagen, Denmark (2016)
