

Mia Moth Wolffbrandt
Nurse
Department of Neurorehabilitation TBI Unit
Glostrup Hospital, currently located at Hvidovre Hospital

Education

1993-1996 Nurse. Nursing School in Herlev, Copenhagen.

Employment

2000 + Nurse at the Department of Neurorehabilitation TBI Unit at Glostrup Hospital, located at Hvidovre Hospital

2006-2008 Employed as a project nurse in a clinical part time research position at Klinisk forskningscenter, Hvidovre Hospital. This meant that in this period Mia was employed partly in the Department of Neurorehabilitation TBI Unit and partly at Klinisk forskningscenter.

1998-2000 Nurse, Section of Apoplexia, Hvidovre Hospital

1996-1998 Nurse, Neuro medical department, Hvidovre Hospital

Presentations at conferences, congresses and symposiums

2013 Oral presentation at theme day in September, arranged by Sundhedsfagligt Råd for Neurologi og Klinisk Neurofysiologi; agitation in patients with a brain injury

2012 Poster presentation at Glostrup Hospitals forskningsdag(researchday); Occurrence and severity of agitated behavior in patients during sub-acute rehabilitation after severe traumatic brain injury

2012 Oral presentation at the 2nd National Neuro Conference, Fagligt Selskab for Neuro Sygeplejersker; Agitated behavior among patients with a severe traumatic brain injury - a study on incidence and severity

2009 Oral presentation at the 1st National Neuro Conference, Fagligt Selskab for Neuro Sygeplejersker; Agitated behavior among patients with a severe traumatic brain injury - presentation of the project

2009 Poster presentation at World Federation of Neuroscience Nurses (WFNN) Congress i Toronto; Occurrence and severity of agitated behavior in patients during rehabilitation after extremely severe traumatic brain injury

2009 Oral presentation on Theme Day concerning agitated patients, arranged by Fagligt selskab for Neuro Sygeplejersker; Registration and treatment of agitated behavior among patients with TBI or associated conditions

2005 Oral presentation at World Federation of Neuroscience Nurses (WFNN) Congress in Barcelona; How to register and observe the appearance of behavior seen within patients with traumatic brain injury

2005 Oral presentation at neurosymposium, arranged by Fagligt Selskab for Neuro Sygeplejersker; How can agitated behavior among patients with a traumatic brain injury be observed and registered?

Teaching

2008 Training of doctors, nurses and physiotherapists at Neurokirurgisk afdeling in Aalborg; The agitated patient - causes, treatment, registration and documentation of the condition

2007 Training of students at CVU, 3 sessions; the agitated patient

Regular internal training in the Department of Neurorehabilitation TBI Unit about agitated patients, including introductory courses, both mono and interdisciplinary teaching hours and on theme days.

Courses

2013 Basic knowledge about neuro, 5 days

2012 Course about ergonomics, 5 days

2011 Training course for experienced nurses in the Department of Neurorehabilitation TBI Unit, Glostrup Hospital

2011 Bobath course, Dianalund, 5 days

2006 Completed UCSF research course - 1 year

2004 F.O.T.T. course, Hvidovre Hospital, 5 days

2003 Neuro educational introductory course, Vejle fjord, 5 days

2003 Basic course in research methodology, Hvidovre Hospital, 3 days

2002 Learning in clinical practice, Hvidovre Hospital, 5 days

2001 Affolter basic course by Felicie Affolter, Hammel Neurocenter, 5 days

2000 Course regarding the startup of Traumatic Brain Injury, Hvidovre Hospital, 19 days
1998 Neuropsychological rehabilitation for Neuroscience nurses, FS15, Copenhagen, 5 days

Research project

Agitated behavior in patients with a severe traumatic brain injury - a study on incidence and severity

Activities

Agitation

Wolffbrandt, M. M. (Lecturer)
30 Sept 2009

Publications

Educational Achievements, Labor Market Attachment and Family Establishment in Children of Parents or Siblings with Acquired Brain or Spinal Cord Injury: A Nationwide Register Study

Wolffbrandt, M. M., Kruse, M., Biering-Sørensen, F., Schow, T. & Norup, A., 13 Jun 2025, (E-pub ahead of print) In: Archives of Physical Medicine and Rehabilitation.

The Danish version of Caregiver Burden Scale: Psychometric properties, prevalence, and predictors of burden in caregivers of persons with stroke, spinal cord injury and traumatic brain injury

Dornonville de la Cour, F. L., Soendergaard, P. L., Wolffbrandt, M. M., Biering-Sørensen, F., Arango-Lasprilla, J. C. & Norup, A., 6 Sept 2024.

A manual-based family intervention for families living with acquired brain or spinal cord injury: a qualitative study of families' experiences

Wolffbrandt, M. M., Soendergaard, P. L., Biering-Sørensen, F., Sundekilde, L., Kjeldgaard, A., Schow, T., Arango-Lasprilla, J. C. & Norup, A., Sept 2024, In: Disability and Rehabilitation. 46, 19, p. 4503-4513 11 p.

The Danish version of Caregiver Burden Scale: Psychometric properties, prevalence, and predictors of burden in caregivers of persons with stroke, spinal cord injury and traumatic brain injury

Dornonville de la Cour, F. L., Soendergaard, P. L., Wolffbrandt, M. M., Biering-Sørensen, F., Arango-Lasprilla, J. C. & Norup, A., 28 Aug 2024.

FITS- Effective family intervention following injury to the brain or spinal cord: Increased quality of life, decreased caregiver burden and A sense of belonging together again

Norup, A., Soendergaard, P. L., Wolffbrandt, M. M., Schow, T., Jørgensen, A. K., Biering-Sørensen, F., Sundekilde, L., Dornonville de la Cour, F. L. & Arango-Lasprilla, J. C., 1 Jul 2024.

The Danish version of Caregiver Burden Scale: Psychometric properties, prevalence, and predictors of burden in caregivers of persons with stroke, spinal cord injury and traumatic brain injury

Dornonville de la Cour, F. L., Soendergaard, P. L., Wolffbrandt, M. M., Biering-Sørensen, F., Arango-Lasprilla, J. C. & Norup, A., 30 Jun 2024.

Psychometric properties of the Danish version of the Caregiver Burden Scale: Investigating predictors and severity of burden after stroke, spinal cord injury, or traumatic brain injury

Norup, A., Soendergaard, P. L., Wolffbrandt, M. M., Biering-Sørensen, F., Arango-Lasprilla, J. C. & Dornonville de la Cour, F. L., 2 May 2024, In: Journal of Rehabilitation Medicine. 56, p. jrm34732

A manual-based family intervention for families with acquired brain or spinal cord injury: A Danish randomized controlled trial

Soendergaard, P. L., Arango-Lasprilla, J. C., Wolffbrandt, M. M., Dornonville de la Cour, F. L., Biering-Sørensen, F. & Norup, A., 29 May 2023, In: Brain Injury. 37, sup1, p. 148-149 381.

Investigating the Effectiveness of a Family Intervention after Acquired Brain or Spinal Cord Injury: A Randomized Controlled Trial

Soendergaard, P. L., Arango-Lasprilla, J. C., Wolffbrandt, M. M., Dornonville de la Cour, F. L., Biering-Sørensen, F. & Norup, A., 29 Apr 2023, In: Journal of Clinical Medicine. 12, 9, 3214.

Predictors of caregiver burden in caregivers of individuals with traumatic or non-traumatic brain injury: A scoping review
Kjeldgaard, A., Soendergaard, P. L., Wolffbrandt, M. M. & Norup, A., 2023, In: NeuroRehabilitation. 52, 1, p. 9-28 20 p.

Families' Experiences of a Manualized Intervention for Families Living With Brain or Spinal Cord Injury
Wolffbrandt, M. M., Soendergaard, P. L., Biering-Sørensen, F., Sundekilde, L., Kjeldgaard, A., Arango-Lasprilla, J. C. & Norup, A., Dec 2022, In: Archives of Physical Medicine and Rehabilitation. 103, 12, p. e149 2184114.

Correction to: A manual-based family intervention for families living with the consequences of traumatic injury to the brain or spinal cord: a study protocol of a randomized controlled trial
Soendergaard, P. L., Wolffbrandt, M. M., Biering-Sørensen, F., Nordin, M., Schow, T., Arango-Lasprilla, J. C. & Norup, A., 27 Dec 2019

A manual-based family intervention for families living with the consequences of traumatic injury to the brain or spinal cord: a study protocol of a randomized controlled trial
