Research focus

I am a post doc researcher at Physical Medicine & Rehabilitation Research - Copenhagen (PMR-C) which is a multi-disciplinary research program in physical medicine and rehabilitation.

During my time as a PhD student, the research area in focus we optimized treatment for patients with an Achilles tendon rupture. My postdoc project focuses on physical activity and exercise among hospitalized patients following a hip fracture.

Current employment

Postdoc
Department of Physical Therapy & Department of Orthopaedic Surgery
The Capital Region of Denmark
9 May 2022 → present

Education

2022 PhD in basic and clinical research in musculoskeletal sciences, Faculty of health and medical sciences, University of Copenhagen, Denmark

2015 Master of medical sciences (Physiotherapy), Lunds university, Sweden

2006 Bachelor in Physiotherapy, Uppsala University, Sweden

Other professional experience

Member of the steering group for Danish Achilles tendon Database
